

EWS-WWF Corporate Membership Programme

"Dubai's energy intensity is among the highest in the world. Going forward, Dubai has to use energy more efficiently."

- HH Sheikh Mohammed bin Rashid Al Maktoum, UAE Vice President, Prime Minister and Ruler of Dubai

Challenges Ahead

- Humans are currently consuming natural resources faster than the Earth can replace them. At the current rate, we will need another planet to sustain mankind by 2050
- The booming population growth and rapid unplanned development in the UAE creates additional stress on the natural environment
- The UAE's 'ecological footprint' is among the highest per capita in the world
- Continued destruction of natural habitats contribute to the population decline of several UAE species

Working for a Living Planet

Emirates Wildlife Society (EWS) is a national environmental NGO. EWS works at the federal level and aims to promote conservation of nature and sustainable lifestyle in the UAE. EWS works in association with WWF, the global conservation organization.

EWS-WWF has been active in the UAE since 2001 and has initiated several conservation projects in the region.

The mandate of EWS-WWF covers:

- Species
- Habitat
- Climate change
- Ecological Footprint
- Natural resources

Our work is implemented through conservation, education, awareness and policy recommendation

Become a Corporate Member

EWS-WWF seeks a future in which business makes a positive contribution to the well-being of society and the planet.

To achieve this, EWS-WWF engages in challenging and innovative partnerships with business to drive change

Our partnerships with the private sector not only provide conservation benefits which help us carry out our mission, but also give us the opportunity to work together with the business sector to increase its commitment to sustainable development and environmentally sound business practices in the UAE
